# FREEDOM BEGINS AT HOME

At VOX, we believe that true freedom begins at home and how we live greatly affects our lives. That's why it is our goal to constantly develop and deliver complex interior solutions - matching collections of furniture, doors, floors and wall systems. We believe that a beautiful and functional interior is the beginning of a happy home where everyone can be themselves.

A top-down view of a wooden desk. In the upper right, a pair of black-rimmed glasses lies on the wood. Below them is a dark grey laptop. To the left of the laptop, a small potted plant with round green leaves sits on the desk. A white rectangular box containing text is positioned in the lower half of the image, overlapping the desk and the laptop.

## INTERIOR CREATION TOOLS

Check out our original platform for creating and arranging interiors - VOXBOX. It's a simple and intuitive on-line app for designing interiors. Try out different furniture layouts and see how they can be positioned in your room. Post your project and share it with your friends and family. We have also created intuitive configuration tools for chosen collections available at [voxfurniture.com](http://voxfurniture.com). Thanks to them you can decide on the final look of your furniture.

## SIMPLE

The Simple collection furniture can be arranged in many ways, putting together colors and choosing the legs. Everything fits together here. We have checked it, and we know that any possible configuration looks great. Thanks to Simple you can create different interiors, all according to your taste and needs.

## A TABLE THAT CAN MEASURE UP TO ANY PARTY

From a handy, round 4 seat table, it extends to one that can fit 8 guests (from 1.1m to almost 2.5m). The round shape balances the geometrical shapes in this collection and provides a warm, family-friendly atmosphere.

Harmony pendant lamp

Simple was created by Marta Krupińska. What was she thinking about while designing it? She was thinking about everything that is of utmost importance here at VOX; i.e. functionality, simplicity, precision, aesthetics, universality. But first and foremost she was thinking about the human and their needs.

## FURNITURE YOU CAN COUNT ON

The designer has calculated, measured and double-checked everything so that we know what is used where and when in the house. And so we created some of the most thought-through and helpful furniture pieces. The liquor cabinet's folding doors save you space and grant easy access to everything inside. It can also serve as a tall TV unit. The tables with discreet drawers will fit all remote controls, chargers and other bits and pieces we usually have no room for.

## IN THE BEDROOM EVERYTHING RESTS WHERE IT SHOULD LAY

The Simple bed will adjust to your interior. You can choose one of the five available widths: from 90cm to 180cm. Under the foldable frame you can store extra linens. The upholstered cushion hanging on the headboard will allow you to unwind before sleep as you read your favourite book. Don't forget to choose the best mattress for yourself.

## SHINE ON, YOU BEDSIDE TABLE!

A good bedside table puts all the little things in order. That's why in the Simple table you will find a recess and a matching functional slat with room for your phone, a picture frame, or notes. In the recess, you can also hide a power strip with wires and cover it using a neat oak lid. The warm discreet lighting in the top drawer will make it easier to find things. All you need to do to switch on the light inside is touch the tabletop.

## A VERY ACCOMMODATING WARDROBE

With a wardrobe like this all things will fall into place, and thanks to a backlit inside they can then be easily found. Handy folding doors don't take much space and allow to access everything quickly. The inside has been designed to fit all kinds of clothes and shoes. If you want to change the original layout of shelves and hangers, it's simple. Within moments, you can adjust their heights. Simple offers you four kinds of wardrobes: from a 1-door wardrobe, through a corner wardrobe to a spacious 4-door wardrobe.

# ALL IS SOUND WHEN THE INTERIOR IS IN HARMONY

Once and for all we have solved the problem of tangling wires by creating a clever organizing compartment in the TV unit. Nothing can be seen but everything can be heard. A living room could also use a well-organised liquor cabinet. When you open the folding door, the light goes on. Special grips will protect your wine glasses and the sliding shelf makes space for putting aside your drinking glassess.

## HOMework

Any work will be done easier and more pleasantly in a well-organized space. The height of all shelves in the bookcase can be adjusted to the size of the objects you want to store on them.

# WE MEASURED UP TO THE DESK

The designer has measured all the most commonly used office supplies and adjusted all the desk's dimensions: the volume of the drawers, the height of the shelves, the depth of the cabinet, the size of the desktop. She also checked what you usually keep on top of your desk and created the perfect storage system: a functional slat. Choose the best set for yourself at [voxfurniture.com](https://voxfurniture.com).

## A TIMELESS AND AGELESS COLLECTION

There is nothing difficult for the Simple collection. Even arranging a teenager's room is a piece of cake. For a child's room you can choose a smaller bed and a desk adjusted to the size of the little users.

## YOUR EVERY MOVE WINS

The Simple collection furniture can be arranged in many ways, putting together colors and choosing the legs. Everything fits together here, every configuration looks great. Thanks to Simple you can create different interiors, all according to your taste and needs. How is it possible? Simple was created according to the ten iconic rules of design by Dieter Rams, where less is more and a product gives the user space to realise their own ideas.

## FRAME

Frame is a collection for people who dream to have both an elegant interior and furniture that will last many years. Thanks to its universal color palette we have managed to achieve a timeless visual effect whereas the solid materials and construction will grant the furniture's durability. The backlit display cabinets liven everything up with a warm glow. The marriage of black with natural wood colors will give the interior an elegant look. Within the Frame collection, you will be able to decorate your sitting and dining room.

FLOOR: Skandinavien, Maloren oak

## FREEDOM OF CHANGE

Thanks to sliding doors, you can decide what will be on display in the open spaces and what will be hidden. At any time you can move the doors and your bookcase will always look elegant.

Wide bookcase

Hvar vase

Bold, creative and versatile. Our designers Joanna Leciejewska and Wiktoria Lenart fear no challenges - they deconstruct the traditional understanding of furniture, give the user freedom to modify it individually. The projects they create win the most important awards: from *Dobry Wzór* through *must have*, and finally *Designer of the Year* (Joanna) and *IF Design* (Wiktoria).

Extendable table

## COZY AND WELCOMING

The Frame table will fit in a small space, inviting everyone for a tasty morning. In the evening, when the guests arrive, it can be extended so that it will fit up to 14 people. Extending the table is easy and comfortable thanks to the guiding rails mechanism. In three steps you will extend it to the needed size.

## ATMOSPHERIC AND ELEGANT

Backlit glass cases can give your interior a sophisticated atmosphere thanks to the warm light tones. It's something that will surely impress your guests. The cases can be put together with one another or with a bookcase for an enhanced effect. The system is equipped with soft close glass doors. The discreet LED lighting will fill your interior with a warm glow.

Origo vase

Thanks to the glass case's unique construction, the displayed object can be seen from three sides. The tinted glass gives it a more sophisticated look. The glass case is available in two options: left or right. It also looks great when put together with the bookcase.

# NATURE

Nature was inspired by the love of natural materials and the conviction that any space can be wisely and beautifully used. Nature will easily match all kinds of interiors: large open spaces, classically divided into rooms or even the smallest ones that require great care when being arranged. The solid shapes can fit a lot in and the slanted wooden legs carrying them will add lightness to the room.

**must  
have**  
SELECTED BY LOGO DESIGN FESTIVAL 2017

Three is a magic number, and our magic three is Tabanda - the designer trio who designed Nature. Megi, Filip and Tomek create furniture based on subtle contrasts and unconventional pairings. They complement modern geometric shapes with nature-based motives and combine raw industrial accents with lively color palettes.

## IT'S WOOD, NATURALLY

Nature was inspired by the love of natural materials and the conviction that any space can be wisely and beautifully used. Natural materials change and mature together with us. Being with you every day, an oak tabletop gathers stories about your family and can trigger your memories. The metal recess is a handy place for herbs, spices and after covering it with a metal lid, you can rest hot pots on it.

## DIVIDE AND CONQUER THE DECOR

It takes skill to divide a large space without closing it but rather opening it for many new possibilities. The two-sided bookcase will subtly divide large spaces for different functions.

## MULTIPLE SOLUTIONS

Live and mix: put wider pieces together with two-sided ones; the fully closed ones with the open or two-sided. Choose the front colors: white will bring in Scandinavian minimalism, oak will give the interior more warmth.

Two-sided bookcase

## FACING LARGE SPACES

Putting together even the most different pieces from the Nature collection will let you enjoy a coherent and harmonious interior. Using two different harmonizing front colors will break the monotony, which works great for large spaces.

## 4 YOU

Comfortable during day and night, cozy when you're alone and welcoming when your friends come to visit. 4 You furniture will allow you to arrange all of the most important spaces of your home: your bedroom, living room, dining room and your child's room.

## WHO SAID THAT A BED IS ONLY FOR SLEEPING?

Over two hundred people, including psychologists and ethnographers, worked on creating the final shape of the 4 You bed. Nevertheless, as the designers Joanna Leciejewska and Piotr Kuchociński stress, the input of users and their expectations towards the bed's functionality played the key role in the process. The whole 4 You collection was designed based on such thinking.

Thanks to the 4 You by VOX app, you can check out all the functions of this collection on your tablet or smartphone. Augmented Reality expands on the information given in this printed catalogue and presents the most important pieces from this collection in the form of short 3D animations. How to use it?

1. Download the app from GooglePlay or AppStore.
2. Find the icon in the catalogue.
3. Run the app and point your phone towards the icon.
4. Test our furniture's functions.

## GET ORGANISED!

The multifunctional boxes can be used for storing accessories, documents or jewelry. The same boxes can create a single piece of furniture by stacking them up and clipping them together.

The dressing table piece can rest upon a low chest of drawers or a two sided bookcase. The height of the tabletop is also comfortable for work and the functional shelf on the side makes it a classic desk. On the solid surface you can place a mirror or a mobile organiser - two accessories especially designed for this piece of furniture.

## BALANCE

What kind of an interior do you wish to create? Do you dream of peace and harmony, or do you combine creative chaos with your everyday life and aren't afraid to go a little wild? Do you need a space for focused work, a comfortable relax zone or are you designing a dining area? No matter what the answer is, the Balance collection will meet your expectations.

Balance is an innovative system that gives you the freedom to create unique furniture designs starting at your dining room, through to your living room ending at your office.

FLOOR: Skandinavien (treated hardwood) - Kategatt oak

## THE FREEDOM OF CREATION

The designers Joanna Leciejewska and Wiktoria Lenart made sure that the appearance and functionality of the Balance system depend only on your imagination. Choose your colors, define functions and freely combine its elements without the use of screws or bolts.

Milo table lamp

The Balance system allows you to build bookcases, chests of drawers, TV cabinets, lockers and closets. The boxes have classic doors opened with the push latch system and can be placed any way you want.

## IT'S SO EASY!

Building unique furniture can be exceptionally easy. The Balance system is based on a few key modules that give unlimited possibilities of creating individual solutions. See for yourself, you won't even need a screwdriver.

1. Choose the boxes and the base (long or short).

2. Glue pieces of anti-slip mat onto the boxes.

3. Build your furniture by placing the boxes and shelves on one another.

4. Secure the furniture to the wall.

## SET UP YOUR BOOKCASE

Feel like a real interior designer. Check out the possibilities of the Balance collection. Use the VOXBOX tool at [voxfurniture.com](http://voxfurniture.com/voxbox) and arrange your space.

## CUSTOM

We're all here. We're resting, lounging, watching a movie with friends. Our living room is a common space that has to meet many expectations. And when a sofa isn't enough, Custom comes to the rescue.

The module leisure set can be freely put together or taken apart. You need three separate armchairs? Or maybe two small sofas? Within a few minutes you can completely change your living room.

FLOOR: Skandinavien (treated hardwood) - Kategatt oak

## ARRANGE IT AS YOU PLEASE

Joanna Leciejewska designed Custom so that you can freely shape your interior by joining and separating the modules. By using different colors and textures of the cushions, you can create new designs.

Coffee table

## AND WHAT ABOUT THE TABLE?

It doesn't like to be put aside. It does all it can to be at hand. Its top, cleverly divided into four parts, hides useful compartments. It's the perfect place for little bits and pieces that you always find handy, but don't want on display. One part of the tabletop can be lifted to make a comfortable, 'hovering table'. Practical holes on the top will allow your laptop to breathe with ease.

A longer wall? You can extend the bookcase so that it looks like it's made to size. Thanks to its three colors, Lori allows for original arrangements. Gray oak, cashmere and graphite blend in well with other furniture and rooms. The bookcase harmonica has all three of them.

## WHERE WILL I PUT ALL THIS?

A table that extends is a godsend when guests come to visit. Especially if you can easily extend it yourself. The recess in the middle of the tabletop is a perfect spot for keeping cutlery, napkins or decorations. You know best yourself what to put there.

Sideboard

The capacious sideboard will surprise you with many practical solutions and will help keep your dining room tidy. The boxes on its doors are as practical as the ones in your fridge. The whole bottom is open, so you can safely store bigger and heavier items there.

## R&O

R&O is the effect of cooperation of two exceptional designers. Tomek Rygalik designed the nature inspired 'Polish Birch' decor and the handles based on sailing rope jewellery were designed by Anna Orska. The R&O collection has a light, plain form with original, sentimental detail.

The furniture's decor is an expression of his fascination with the endangered gem of Polish nature - the *Betula oycoviensis* (forefathers' birch). It is estimated that only 250 of these trees are left.

## HIFI

Elegant collection of geometric shapes harks back to the landmarks of 20th century architecture following Mies van der Rohe's rule that, less is more'.

## ELEGANT AND GEOMETRIC

The furniture's contours have been designed on the cuboid base and the whole collection contains freely movable modules. This way, any design can be unique because you choose elements like chests of drawers, wardrobes or shelves yourself. Putting together vertical and horizontal lines of the particular pieces makes the borders between them blend. Irregular compositions of bookcases or chests of drawers will make you feel like a sculptor.

## NEST

Childhood is a time when the imagination is unlimited. To keep it this way into adulthood, it's good to nurture it from the earliest years. Nest is a safe microworld that allows the youngest for creative play and learning. For teenagers, it makes it easier to explore their creativity and express their emotions. All that just to let your child bravely create its dream world.

## FURNITURE JUST LIKE ME

Our designers know that little human beings need their own space that belongs only to them and changes with them. Nest will surround the energetic little ones with warmth, keep up with the emerging school duties and after a few years will be the companion of a resolute teenager.

These seemingly contradicting elements have finally found a common platform. All those hiding spots and corners too! The Young Users furniture grows alongside the little user. No matter who you are and how old you are, YU will adjust to you and your needs. We call it the world's most personal furniture for a reason.

## IT WILL ENDURE ALL YOUR IDEAS!

The Young Users collection, designed by Marta Krupińska, allows to create all kinds of arrangements for children's and teenagers' rooms.

A photograph of a modern, minimalist interior featuring the Spot Young furniture collection. The collection includes a light-colored wooden side table with a white drawer, a white alarm clock, a small potted plant, and a framed poster that reads 'GOOD MOMS HAVE STICKY FLOORS, DIRTY OVENS, AND HAPPY KIDS'. To the right, there is a white desk lamp and a wooden A-frame structure with a black cup holding pencils and a small white container with sticks. The background shows a window with sheer white curtains.

## SPOT YOUNG

SPOT invites you to a world of childhood play. Inspired by hours spent playing outdoors on swings, climbing frames, building secret bases and playing hide and seek, it brings to your room the dynamic energy embedded in its slender, levitating shapes and swinging organizers.

## FOR WORK, PLAY AND STUDYING

Can a bed at the same time be a bookcase and a wardrobe? Of course! Designer Wiktoria Lenart is sure of it. See how many functions the Spot bunk bed contains - storage for seasonal clothes, two sliding hangers and two bookcases.

## DESK AT THE CENTER OF ATTENTION

A two-sided desk will work well both for siblings and four friends playing board games. You don't have to place the desk in the corner or at the wall. You design your room and you decide which spot is best for playing, studying and working.

Safari clamp for books

To complement the collection, we have designed a classic couch and a 90x200 bed with a surprising Tipi frame on wheels. You can cover it with fabric - for the youngest it can be an inspiration to build their own secret base and for the older it will allow to compartmentalize their personal zone. At the bottom of the sofa bed, you can install a drawer or an extra bed.

## EVOLVE

Individuality, creativity and innovation are the essence of Evolve. This collection will awaken a passion to create. It's more than just furniture.

## FURNITURE UNLIKE ANY OTHER

A clever cabinet matching the couch will help save space. Rubber bands attached to the fronts of the cabinets allow to decorate them with pictures and accessories.

Collo floor lamp

See how the Evolve couch changes. The wardrobe, desk and bookcase cooperate with the couch but can also function on their own. The tippable mattress hides a practical container for linens. The lower couch drawer can fit an extra bed. The desk on wheels can always be moved somewhere else. The headboard cabinet contains a spacious cargo area with organizers.

## SMART

The Smart furniture is a never-ending story which opens the door to the world of creativity. If you're thinking of a room ready for change and adjusted to your needs, the Smart furniture can be your constant source of inspiration. The adventure begins with assembling the furniture - that's when you decide what colors the particular pieces will be. Gray? White? Two-colored? What height do you want them? You decide and begin your own design adventure.

## FURNITURE THAT DOESN'T HINDER YOUR IMAGINATION

Meet the furniture that changes along with its owner. This collection is aimed for both younger schoolchildren but also older adolescents. As the designer, Marta Krupińska says, this furniture's special quality is the possibility of change - not just through changing its appearance but also by adjusting it to their exact height, age and expectations.

## METT YOUR CHILD'S COMMAND CENTER

Your children will spend a lot of time at their desk, so it's very important how this piece of furniture will adjust to their needs. The bar installed at a chosen height can be used for hanging all kinds of organizers and school materials. The double tabletop gives extra space to put the laptop or schoolbooks.

Smart overlays

Its height can be regulated according to the child's height. The high bookcase overlooks everything and can store your child's books and other items.

## UPHOLSTERED FURNITURE

For many of us the most important furniture in the house is the one you rest on. Sofas, armchairs, pouffes, footstools, chaise longues - we love them because they allow us to breathe with ease and have our little moment just for ourselves.

What does Marta Krupińska think about while designing? She thinks about matters that are most important here at VOX. About functionality, simplicity, economy, precision, aesthetics, universality. But first and foremost she thinks about the human. That kind of thinking always ends well. In this case, it resulted with the Simple, Young Users and Lori collections.

Marta Krupińska

## VOX DESIGNERS

At VOX we know that the more talented people there are, the more brilliant the ideas. That's why we work on our designs in teams. We invite talented designers to join our creative exploration and let thoughts and needs materialise into beautiful, useful objects.

Two talented brains come up with many brilliant ideas. Łukasz and Bartłomiej are a designer duo working at the Pawlak & Stawarski studio since 2014. They differ in their work approach but have one thing in common - they are both exceptionally talented. They design furniture, lamps, crockery and even medical equipment while collecting awards like, Dobry Design' (Good Design) for the Nest multibed.

Joanna Leciejewska is a designer of many talents and awards. Graduate of Industrial Design Faculty at the Poznań Academy of Fine Arts. Everything she puts her hands on changes into a little work of art: furniture, packaging, lighting, graphics. Her works are presented at exhibitions all over the world, you will also find them in our stores.

Piotr Kuchciński - architect and designer. Honors graduate of Poznań University of Technology. Author of many urban and civic projects. He thinks of living space as a whole - designs houses, interiors and even illustrations for books you can put on the shelves of his projects.

Wiktoria Lenart

Wiktoria Lenart is a graduate of Industrial Design at Wrocław Academy of Fine Arts and Wrocław is the lucky city where this designer shares her knowledge and skills at the Academy of Fine Arts working as a junior lecturer. When she's not teaching, she's putting her heart and sense of beauty into her furniture designs. The world appreciates it - Wiktoria's bed design for the Spot collection was awarded with one of the most prestigious awards: the IF Design Award.

Tabanda

Three is a magic number, and our magic three is Tabanda. The authors of the Nature collection: Megi, Filip and Tomek create furniture based on subtle contrasts and unconventional pairings. They complement modern geometric shapes with nature-based motives and combine raw industrial accents with lively color palettes.

## VOX CAPITAL GROUP

combines many companies and organizations complementing each other so that the customer can be offered a full range of interior design products and services. VOX Furniture, VOX Doors and Floors, VOX Profiles; every user, student and designer is a significant partner contributing to our development and innovations. We create interiors together with the end user because it is people and their individual needs that are the center of our attention.
